The size given is for the longest side of the print, the other side will depend on the best crop for the photograph. For example a 20" print could go from a 20"x10" panoramic up to a 20"x20" square. All our framing is carried out by the finest framer in the area, with each frame made to order. All framed prints will be mounted in either a double mount or a fillet mount and will be supplied ready to hang. We even supply the picture hooks
